

Tarpent StratiSpire 1 and 2 Solid

Setup

Setup is straightforward. It will take about 1 minute once you get the hang of it. Please watch the setup video!

<http://www.tarpent.com/stratispire1.html#video>

1. Spread tarp on ground. Stick three stakes in. Remove stakes from main bag and have ready. See packing poles at about 11:00am-11:15am or 12:00pm-12:15pm.
2. Slide one pole into the bag (this is best). Insert packing pole, handle and feet, through top opening so that packing pole sits/ground on underside of tarp.
